REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The cited prior art fails to teach claimed invention alone or in combination.

The claimed invention is a data processing apparatus for processing media content comprising plurality of scenes, comprising input unit to receive content description data including data structure portion describing scenes of media content and an attribute portion including context attribute having value for describing a context of one segment and importance attributes representing degree of contextual importance and outputting segment based on degree of importance.

The cited prior art in general teaches inputting video and audio data as described in Mauldin reference. However, as argued by applicant, Mauldin fails to teach claimed invention. Another cited reference Uchihachi et al. (Patent # 6,535,639) teaches calculating importance attribute but fails to teach inputting content description data as claimed. Therefore the claimed invention is allowable over cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sanjiv D. Shah whose telephone number is (571) 272-4098. The examiner can normally be reached on M-F 9-5:30.
